

Credit Life / Credit Disability Insurance

As an additional benefit for our members, Lithium FCU offers credit life and credit disability insurance to protect you and your family in the event of death or disability. Our representatives will fully explain all of the benefits of protecting your loan.

GAP

Lithium FCU is proud to offer GAP Plus coverage to all of our members who have a new or used car financed with us. This insurance will pay the difference between the primary auto insurance settlement and the "protected balance", the payoff amount that is directly related to the purchase of the vehicle or the amount borrowed that is secured by the vehicle (subject to coverage limits). In short, in the case of an accident, you won't be short changed when it comes to replacement. GAP Plus provides members with \$1,000 towards the purchase of another vehicle if financed with Lithium FCU.
